

CONVENTIONAL FIRE CONTROL PANEL

CT-CFP -8

Conventional Fire Alarm Control Panel 8 Zones was designed to provide a simple solution for a reliable fire alarm system and friendly to the user. The design of the panel, facilitated by a simple push-button interface, significantly enhances control and accessibility.

Mains supply	110VAC /220VAC 50/60 Hz
Auxiliary output	18 ~ 28VDC (24VDC typical) 100 mA max, current limited
Batteries	2 * 12V 1.3AH sealed lead acid
Sounder output (Bells)	2 * 1 A maximum (Bell 1 = 1 A ; Bell 2 = 1 A)
Zone alarm current	8 ~ 20mA
EOL resistor for Zones	6.8K Ohm
